TIPS FROM YOUR PHOTOGRAPHER TO HELP YOUR DAY RUN SMOOTHLY

by Michele

Hello Beautiful!

As you plan out your dream wedding day, please reach out to your photographer. We have lots of little tips that can streamline your day while getting all the photos you've dreamed about. I am so excited that you have found your best friend to do life with.

HAVE EXTRA FLORALS FOR FLAT LAYS

These extra blooms will make those lovely details pop and complete your wedding story & have them delivered before your photographer arrives.

SEE YOUR BOO BEFORE CEREMONY

A first look will not only calm your nerves, it will provide you more time to spend with your best friend. Plus more portraits!

GIVE YOURSELF 15 MINUTES

Whether in the morning as you get ready or before the ceremony, give yourself 15 minutes to soak it all in, or write your future spouse a love note. Savor those quiet moments..

HIS DETAILS ARE IMPORTANT

Don't forget to add some special details for the groom. Get him a gift like cufflinks, a watch, a handkerchief. Get creative with the tie, socks, custom drink ware, his vow book, and much more.

HAVE AN EXTRA PAIR OF SHOES

Be sure to get an extra pair of shoes for the reception. Best for dancing the night away!

FORGET THE PARTY FAVORS

Use that money towards more elaborate food, drinks, or dancing. Your guests are all about the experience, not the little gift you send them home with.

YOUR CEREMONY LOCATION IS KEY

Depending on the time of day & the season, think about the direction your ceremony will take place. Ideally, the sun should be behind you and facing towards the guests.

“

We had such an amazing experience with Michele as our wedding photographer from the moment we booked with her, all the way up to the wedding day. Michele provided us with an amazing service and went above and beyond with helpful advice and suggestions making a very busy time so much easier for us. We couldn't be happier with how the photographs came out, a really amazing selection and they will be cherished. I couldn't recommend Michele enough, even on initially talking to her you'll know you've made the right choice and are in good hands.

I HOPE THIS WAS HELPFUL TO YOU!

If you have any further questions when it comes to mapping out your day, I'd love to connect! Feel free to give me a ring or email me!
